Product Manager | Building User-Centric SaaS & Supply Chain Products

Bengaluru, Karnataka, India

Summary

Passionate Product Manager with experience in data-driven decision-making, user research, and growth strategy. I specialize in building scalable products, optimizing user experience (UX), and driving business impact through A/B testing, SEO, and cross-functional collaboration.

Skilled in product development, analytics, and market research, I thrive at the intersection of technology and strategy to deliver high-impact solutions.

Open to networking and collaboration in product management, tech, and data-driven growth.

Experience

4flow

Product Manager

July 2025 - Present (11 months)

Bengaluru, Karnataka, India

- Product Manager at 4flow GCC India Pvt Ltd working on B2B SaaS for transportation and logistics
- Own features across the Transport Order lifecycle and shipment visibility
- Run discovery with stakeholders and convert requirements into PRDs, user stories, and acceptance criteria
- Partner with UX and engineering to plan, execute, and ship features through sprints
- Define workflow validations and edge cases to improve reliability and reduce operational issues
- Drive TO, Load, and Leg data readiness and consistency for usage across the platform

- Align integration requirements with existing TMS or iTMS systems and partner data flows
- Support UAT, release notes, and stakeholder updates to ensure smooth rollouts
- Track feedback and product metrics to prioritize backlog and improve user outcomes

Palladium by Primenumbers

1 year 11 months

Associate Product Manager

July 2023 - January 2025 (1 year 7 months)

Bengaluru, Karnataka, India

Driving Innovation and Product Excellence

- Product Development: Led the development of RERA Explorer, an advanced real estate research tool, boosting site viewership and engagement through SEO and content strategies.
- Cross-Functional Collaboration: Worked closely with engineering, design, and marketing teams to define and prioritize product roadmaps, ensuring strategic alignment with business objectives.
- Data Quality Optimization: Enhanced Palladium, a tender analysis tool, by introducing new features, optimizing UX, and leading A/B testing for data-driven decision-making.
- Marketing & Revenue Growth: Implemented cold-call marketing strategies, significantly impacting revenue and demonstrating the power of targeted outreach.

Data Analyst Intern

March 2023 - July 2023 (5 months)

Bangalore Urban, Karnataka, India

Laying the Foundation for Product Management

- Data Analysis: Categorized chemicals for a chemical distribution product, ensuring accurate CAS number classification.
- User Feedback & Research: Conducted surveys and interviews to inform product strategy and improve user experience.
- Quality Assurance: Collaborated with the QA team to test new features and maintain product reliability.

Stepping Stones

Business Development Team
July 2021 - October 2021 (4 months)
Bangalore Urban, Karnataka, India
Growth & Marketing in EdTech

- Marketing Initiatives: Led campaigns to increase student engagement and platform awareness.
- Campus Ambassador Role: Expanded outreach across college branches and student groups to drive adoption.
